## **IN THE SPECIFICATION**

Page 14, replace the heading at line 18 with the following: c(Arg-Gly-Asp-(R or S)-Tfm-Phe-Val) (ST2191/2192) (SEQ ID NO:1)

## IN THE SEQUENCE LISTING

Kindly enter the attached Sequence Listing in lieu of the substitute submitted on March 13, 2006. Substitute paper and computer readable forms of the Sequence Listing are being submitted herewith in response to the Examiner's requirement. The paper and computer readable forms of the Sequence Listing do not add new matter, and their contents are the same. It is respectfully submitted that the attached complies with 37 CFR § 1.821 et seq. Otherwise, prompt notice of any defects in the Sequence Listing is earnestly solicited and additional time is requested to comply.

Note that (i) the cyclopeptide shown as SEQ ID NO:1 in claim 2 is circularized by a lactam bond between the ends of the linear peptide which is the precursor, (ii) all residues are L-amino acids, and (iii) the Phe residue is both fluoroalkylated, and can be R or S.
